

## Benefits of Undergrounding

- Improves overall appearance
- Enhances historic views and character of Southborough Center
- Increase in property values
- Will allow street trees to grow and thrive
- Reduces overhead wire maintenance
- Decreased frequency of power outages due to accidents and weather
- Unobstructed pedestrian flow at sidewalks

## The Transformation of Southborough

*The residents and businesses of Southborough realize that we have a unique opportunity to transform the Main Street and Downtown area into a truly unique and beautiful historic district by undergrounding the utilities in conjunction with our upcoming major Main Street road project. Thanks to the contributions made by the following supporters, Southborough is now able to move forward on this complicated Master Plan initiative for downtown.*
