**Rep. Dykema: Nunes Must Address Community Concerns**

In a letter earlier this week, Representative Carolyn Dykema (D-Holliston) called on developer David Nunes to address significant public concerns about potential impacts of the proposed casino development in Milford.

"Since you first proposed a casino development in 2009, you have not sponsored a single public meeting presenting the substantive details of your casino proposal," Dykema writes in the letter. "The lack of dialogue, outreach and substantive information by you regarding your casino proposal is of great concern. If your proposal is indeed serious, you must engage with the local communities."

A copy of the letter is available [here](#) on her website.
