Dykema Raises Concerns About Milford Casino Application

In a letter sent earlier today, Representative Carolyn Dykema (D-Holliston) calls on the Massachusetts Gaming Commission to respond to concerns about the validity of the application for a resort casino license in Milford.

"What is surprising is that despite their significant role, the owners of Foxwoods are not on the list of qualifiers subject to Gaming Commissioner background checks," Dykema writes in the letter. "These checks are viewed by the legislature as essential to promoting the highest standards of quality and ethics for gaming operations in the Commonwealth."

A copy of the letter is available [here](#) on her website.
