2015 SOUTHBOROUGH SCOUT HYDRANT CHALLENGE

RIGHT TOOLS FOR THE JOB

- Dress appropriately for weather
- Wear bright colored clothing/reflective vest
- Steel shovel to break up frozen snow
- Use snow shovel/coal shovel to move snow
- Take frequent breaks, stay hydrated

HYDRANT FLAG/MARKER POLE

- Metal or plastic attached 2-4 feet above hydrant
- May have reflective flag or pole

UTILITY POLE HYDRANT MARKER

- White, Yellow, Orange, Blue, Green Reflective Band all way around pole – 10 feet up (see image on right)
- Number indicates distance in feet to hydrant and faces direction of hydrant – don't confuse with utility pole markers (see image on left)
