## Description of Project Friend Program:

This is a program in which you spend time with an elementary school student from Southborough in the $2-5^{\text {th }}$ grade if you are a student at Algoquin High School. If you are a student at Trottier Middle School you will be partnered with a student from Kindergarten- first grade. You, a "big friend," will each be paired with your own "little friend" with whom you will spend meeting times building a relationship through various activities such as arts and crafts, games, and discussion. The basis of the program is to form a friendship and provide the little friend with a role model and mentor that he/she can look up to. Meeting Times and Location:

Thank you for your interest in Project Friend!

Start by finding your grade and follow the information to the right to get the age group you'd be working with as well as the meeting information. You can chose to meet with your little friend for an entire year or for just half of the year (you may choose either the first half or the second half).
