Subject: Open Meeting Law Violation -- a copy for you --- because I think you will find it interesting.

I have provided a copy of this legal complaint for you, because I know you are interested in local affairs and how our local government is being run.

It concerns how political opponents of official policies are harassed, silenced and sidelined, and how attempts are made to hide official actions against them.

I am filing this complaint reluctantly, but I have been left with no alternative except to take official action. To remain silent would be to feed the behavior, and would embolden the perpetrators. It cannot be allowed to continue, or repeated, and must be ended.

Of course the Board of Selectmen have the right to respond, and they must, by law.

We will hear all kinds of excuses. But facts are facts, and they are laid out bare, here, for all to see.

I am not blaming all officials equally. There are different levels of violations which have occurred here, and some of them are, in my opinion, intentional, by certain individuals. Whereas other officials appear to be involved only because they were deceived, unwittingly, into committing violations.

Therefore, there may be different defenses, by different officials, and by different attorneys.

This is a very unusual case, and I am sure you will find it interesting to read the details as to how it actually occurred, who was orchestrating it, and why.

And of course, there are many lessons about democracy, or lack of it, and efforts at harassing political opponents, even at this tiny, local level.

I am certainly not alone in having suffered from false accusations and harassment because of my political positions. But I am certainly not going to be intimidated and tolerate any more of this type of behavior

Ultimately a decision will be made by the Attorney General.

Thank heavens we actually have an AG with authority to control the behavior of our local governments.

So let the facts be known, and let the AG take whatever action they consider appropriate.

Feel free to forward this entire package of attachments -- to anyone you wish --- because there is nothing to hide. It is fully public information, by law, and the AG will publish some of it officially.

Sincerely

David Parry
