"Other" includes American Indian, Alaska Native, Native Hawaiian, and Pacific Islander populations. Although, Mass Public Health is tracking those groups statewide, given the low numbers in our town, it isn't sharing data on vaccination rates for Southborough's population. Therefore I extrapolated from other data to add those figures to this category.

"Unknown" includes data for patients where providers didn't have means to collect information on race and ethnicity - which is why vaccination figures are larger than population
