***Today's cases that required CONTACT TRACING and CLOSE CONTACTS were IDENTIFIED.** Contact tracing was completed for the days the positive individual was present when they may have been infectious. Individuals were identified as in-school [close contacts](#), received notification and the Test to Stay program was offered.

****Today's cases that required CONTACT TRACING and NO CLOSE CONTACTS were IDENTIFIED:** Contact tracing was completed for the days the positive individual was present when they may have been infectious. No in-school [close contacts](#) were identified.

*****Today's cases that required NO CONTACT TRACING:** The positive individual was not in the school building during the potentially infectious time period, so NO in-school contact tracing was required.
