*Data from state reports; greater than 100% results indicate population stats for the town are inaccurate

**Population estimate extrapolated from 2019 census data. This data is also an estimate and not completely accurate - but seems to show closer true figures for at least the teen population.

***Total Eligible is based on ages 5+ for most categories - except for Boosters, which is based on ages 12+

Data from state reports; greater than 100% results indicate population stats for the town are inaccurate

"Other" includes American Indian, Alaska Native, Native Hawaiian, and Pacific Islander populations. Although, Mass Public Health is tracking those groups statewide, given the low numbers in our town, it isn't sharing data on vaccination rates for Southborough's population. Therefore I extrapolated from other data to add those figures to this category.

"Unknown" includes data for patients where providers didn't have means to collect information on race and ethnicity - which is why vaccination figures are larger than population

**Population data taken straight from 2019 census report posted on CensusReporter.org (Appears to also be outdated/inaccurate on race/ethnicity breakdowns in Southborough.)
